If you want to pick it up local I will cancel the shipping fees. Please ask any questions before you bid. If you live close to Knoxville, TN or Lexington, KY then I can drive to those 2 cities and meet you to drop it off. No international bids. I am accepting PAYPAL only for this auction. I will be shipping FEDEX Ground. Thanks for looking and have a great day. The free listing tool. List your items fast and easy and manage your active items. It is about as clean as you could possibly hope to find one. Was last used about a year ago, worked with out issues at that time. It comes with gooseneck light and microphone, as well as the original CARVIN DX manual. The board was used in a studio and covered when not in use. Due to weight and size of this board I have listed it as a local pick up item only, but wont object giving shipping consideration if costs are compensated. Please check the fields highlighted in red. Currency. Last manuals provides you a fast and easy access to the user manual CARVIN C2448. We hope that this CARVIN C2448 user guide will be useful to you. Optional Accessories USM16MC, USMBP wireless systems Require USMKIT C1648 CB1648 Heavy padded bag, RW1648 Road Warrior™ case C2448 CB2448 Heavy padded bag, RW2448 Road Warrior™ case C3248 RW3248 Road Warrior™ case C1648P RW1648P Road Warrior™ case. CoNCERT 48 SPECiFiCATiON SQUiCK START UP If youre like most new owners, youre probably in a hurry to plug your mixer in and use it. With the mixer unplugged and the unit turned off, complete the following procedures. This leaves the remaining MIC inputs for sources that dont require phantom power. If

the adjacent PK peak LED flashes, reduce the level from the channel or master EFF1 or EFF2 send controls. The RETURN control will adjust the volume level of the selected effects. Remember each channel has its own two EFFECT sends that will send the signal to the effects processors. The red PK LED will indicate when the effects signal from the channel is distorting.

<http://schlammatlas.de/en/node/18787>

Reduce the level of the channel EFFECT control until the PK LED stops flashing. Turning the PARAMETER control to 1 will provide the shortest delay time between the original signal and the echo. Increasing the PARAMETER control to the right will increase the time delay between the original signal and the echo. The compressor circuit is prefader, so you can set the COMP once and 44 still adjust the group fader as needed. The LED will indicate when the compressor is working. Lastmanuals, for instance, does not offer a translation service. With these schematics you can easily find the problem if you have little electronic knowledge. This DVD PC and Mac compatible contents more than 450 PDF files Adobe Reader XI !!! The files are not compressed to save on DVD cost. POWER SOURCES The appliance should be connected to a power supply only of the type described in the operating instructions or as marked on the appliance. **GROUNDING OR POLARIZATION** Precautions should be taken so that the grounding or polarization means of an appliance is not defeated. **POWER CORD PROTECTION** Power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles, and the point where they exit from the appliance. **SERVICING** The user should not attempt to service the appliance beyond that described in the operating instructions. All other servicing should be referred to qualified service personnel. **FUSING** If your unit is equipped with a fuse receptacle, replace only with the same type fuse. Refer to replacement text on the unit for correct fuse type. **LIMITED WARRANTY** Your Carvin product is guaranteed against failure for 1 YEAR unless otherwise stated. Carvin will service and supply all parts at no charge to the customer providing the unit is under warranty. Shipping costs are the responsibility of the customer. This warranty does not cover, and no liability is assumed, for damage due to natural disasters, accidents, abuse, loss of parts, lack of reasonable care, incorrect use, or failure to follow instructions. This warranty is in lieu of all other warranties, expressed or implied. No representative or person is authorized to represent or assume for Carvin any liability in connection with the sale or servicing of Carvin products. Describe in writing each problem. If your unit is out of warranty, you will be charged the current FLAT RATE for parts and labor to bring your unit up to factory specifications. **MAINTAINING YOUR EQUIPMENT** Avoid spilling liquids or allowing any other foreign matter inside the unit.

The panel of your unit can be wiped from time to time with a dry or slightly damp cloth in order to remove dust and bring back the new look. As with all pro gear, avoid prolonged use in caustic environments salt air. When used in such an environment, be sure the mixer is adequately protected by a cover. 1 2 3. 6 Summary of content 6 pages Page 1 This symbol is intended to alert the user to

the presence of uninsulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons. CAUTION RISK OF ELECTRIC SHOCK DO NOT OPEN This symbol is intended to alert the user to the presence of important operating and maintenance servicing instructions in the literature accompanying the appliance. A master MONITOR knob lets you control the overall volume of an external monitor amp. The TAPE IN control is for varying the level of the signal being received at the RCA TAPE IN jacks. A PHANTOM POWER switch is provided for engaging or disengaging power to condenser mics. Page 3 LIVE SOUND SYSTEM In a live sound reinforcement or a public address system P.A. System, the input signals to the mixer will come from the microphones and instruments on the stage. Each microphone or instrument to be amplified by the P.A. system must be connected to one of the mixer’s inputs. If you have enough channels, try to mic each stage instrument. The EFFECT control will adjust the volume level of the selected effect. Remember each channel has its own EFFECT send that will adjust the amount of signal sent to the effects processor. The red PK LED will indicate when the effects signal from the channel is clipping. INSPECT YOUR MIXER FOR DAMAGE which may have occurred during shipping. If in the event you have to reship your This will provide the best possible protection during shipment. CARVIN and the shipping company are not liable for SAVE YOUR INVOICE. It will be required for warranty service if needed in the future.

SHIPMENT SHORTAGE. If you find items missing, they may have been shipped separately. Please allow several days for the rest of your order to arrive before inquiring. For instance, we equipped the Mic input with our XENYX mic preamp, which is legendary for its sonic clarity and highheadroom performance. Sports announcers, radio and TV reporters will definitely want one of these in their field bag. Armed with premium microphone preamps and robust. Next generation XENYX Q Series USB mixers can handle your live gigs and provide the state of the art tools to make stunning, professional quality recordings. What's a Compressor. What's compression Glad you asked. Compression limits the dynamic range of a signal. Lowering the level of loud sounds and turning up softer sounds to achieve sonic balance. But applying compression is a delicate art that many novice, and even intermediate sound techs have difficulty mastering. Now you can easily dial in the perfect amount of compression for instruments and vocals, creating powerful mixes with punch and clarity. Sonically Superior Mic Preamps All XENYX mixers have one thing in common; great sounding. High headroom XENYX mic preamps. These state of the art mic preamps are a tremendous step in the evolution of audio technology— and they can easily hold their own, even when compared to expensive, boutique style mic preamps. XENYX preamps offer a staggering 130 dB of dynamic range WORKS PERFECTLY, CAREFULLY PULLED FROM A TRITON korg triton COVER PLATE FOR MOSS AND SCSI. For Korg Triton 61 key or 76 keys pictured.
